Reviving Practical Ayurveda Through the Guru-Shishya Tradition

Ayurved Yashobhumi 2026 is India's largest hands-on clinical training workshop in Ayurveda, bringing together Gurus, clinicians, academicians, researchers, students, and industry leaders in the sacred land of **Devbhoomi Haridwar**. The event is designed to bridge the gap between theoretical knowledge and real-world clinical practice through experiential learning, scientific exchange, and professional collaboration.

The Vision Behind Yashobhumi

After the successful journeys of Ayurved Anantam and Ayurved Aparajita, we realized that while knowledge can be shared through lectures, true learning comes through practice.

Yashobhumi was born from a simple belief:

"It is always better to do it yourself than just listen about it."
